  - **Combining the engineering for Water and Roads permanent repairs to obtain efficiencies in schedule and costs with the priority on Water**

## Jamestown Town Square

CIRSA, FEMA, State, GOCO and Local

### Updates

- GOCO announced \$5 million in grants for flood impacted Communities
- CU Technical Assistance Program may help design options for Community visualize for the Town Square
- Conceptual Design Feedback tonight!

## Jamestown Volunteer Fire Hall

CIRSA, FEMA, State and Local

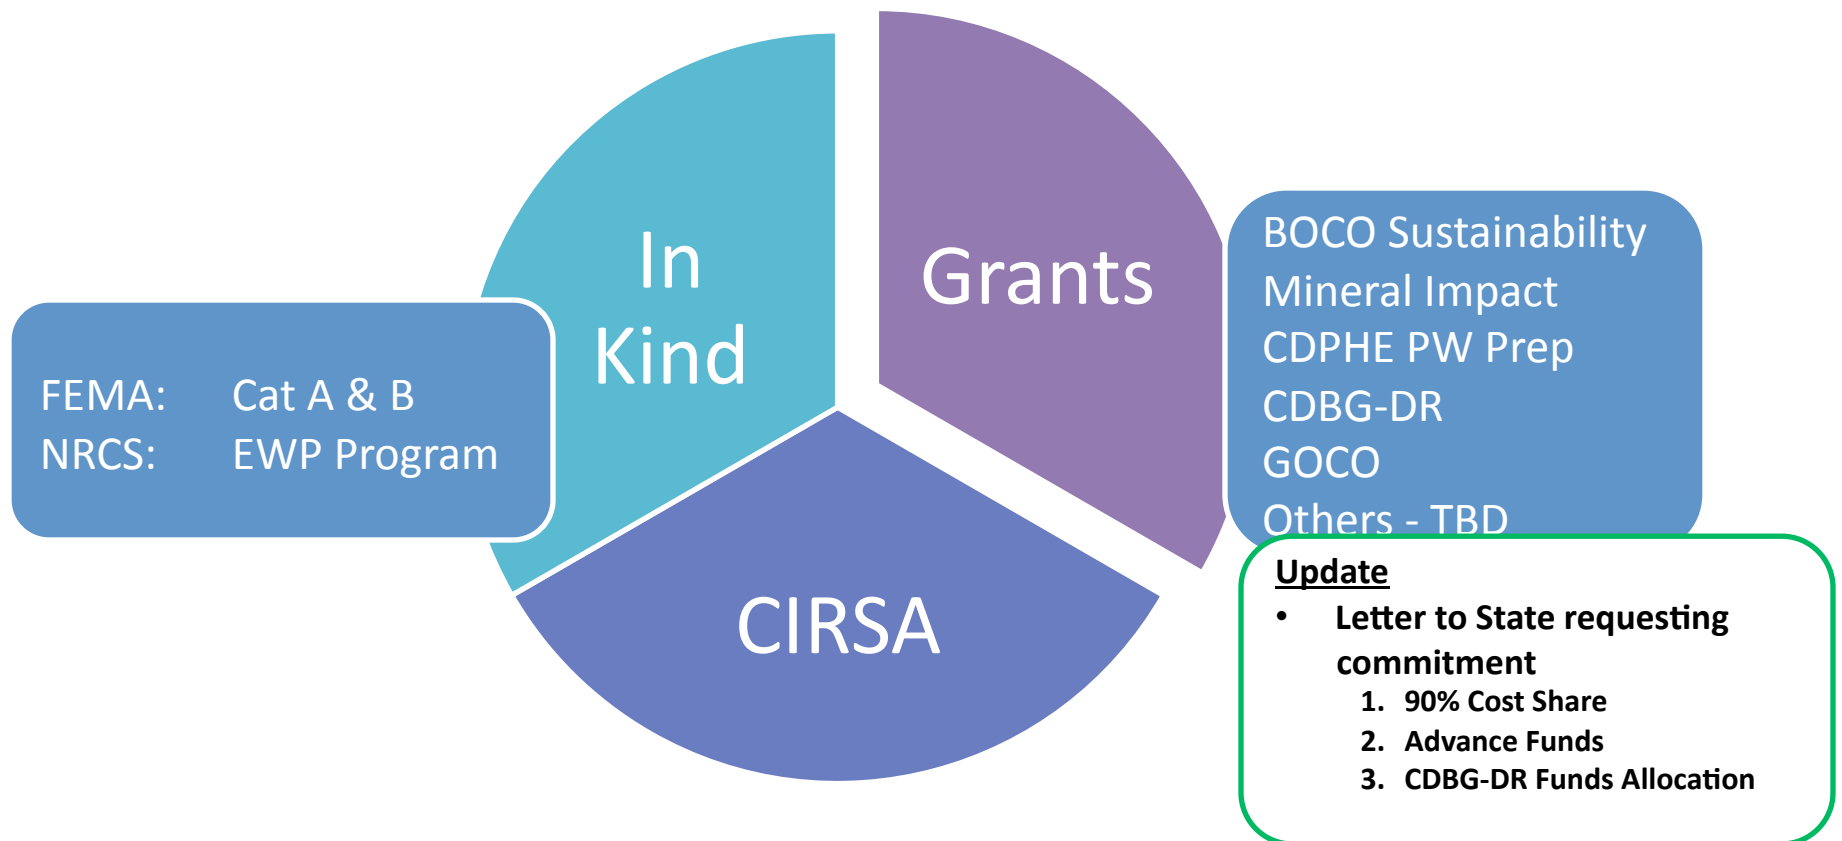

- Fire Hall was condemned by CIRSA
- JVFD will engage engineer, architect to design new fire station

## Local Cost Share

- Where does the local cost share come from?

# Stream Corridor Master Plan

CWCB, State, AMEC, FEMA,  
Pro Bono Professional Services

## Objectives:

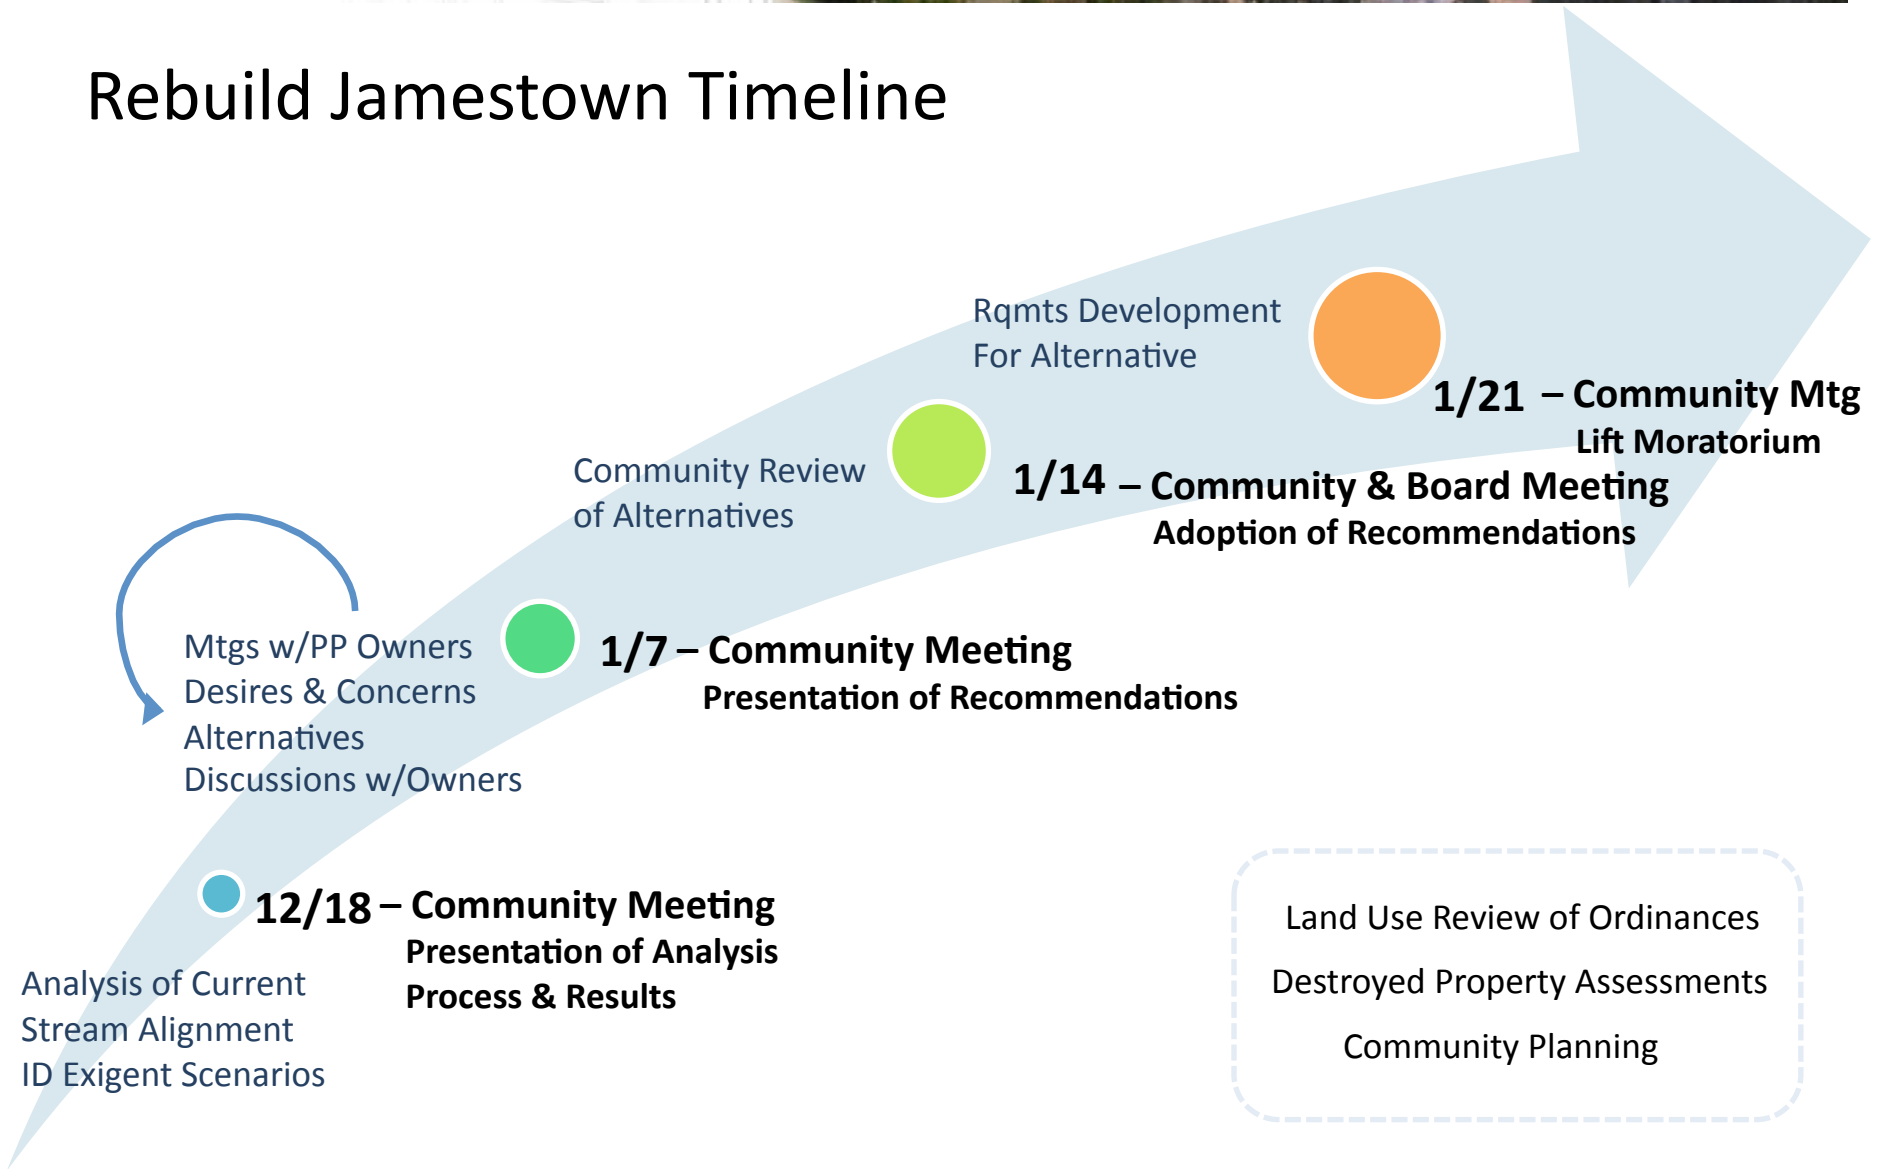

- To involve the Jamestown Community in the development of the Master Plan
- Allow for as many re-buildable lots as possible by Spring 2014
- Design natural stream morphology into the Creek
- Improve stream and floodplain capacity and morphology
- Recommendations for revised Town ordinances

# Rebuild Jamestown Timeline

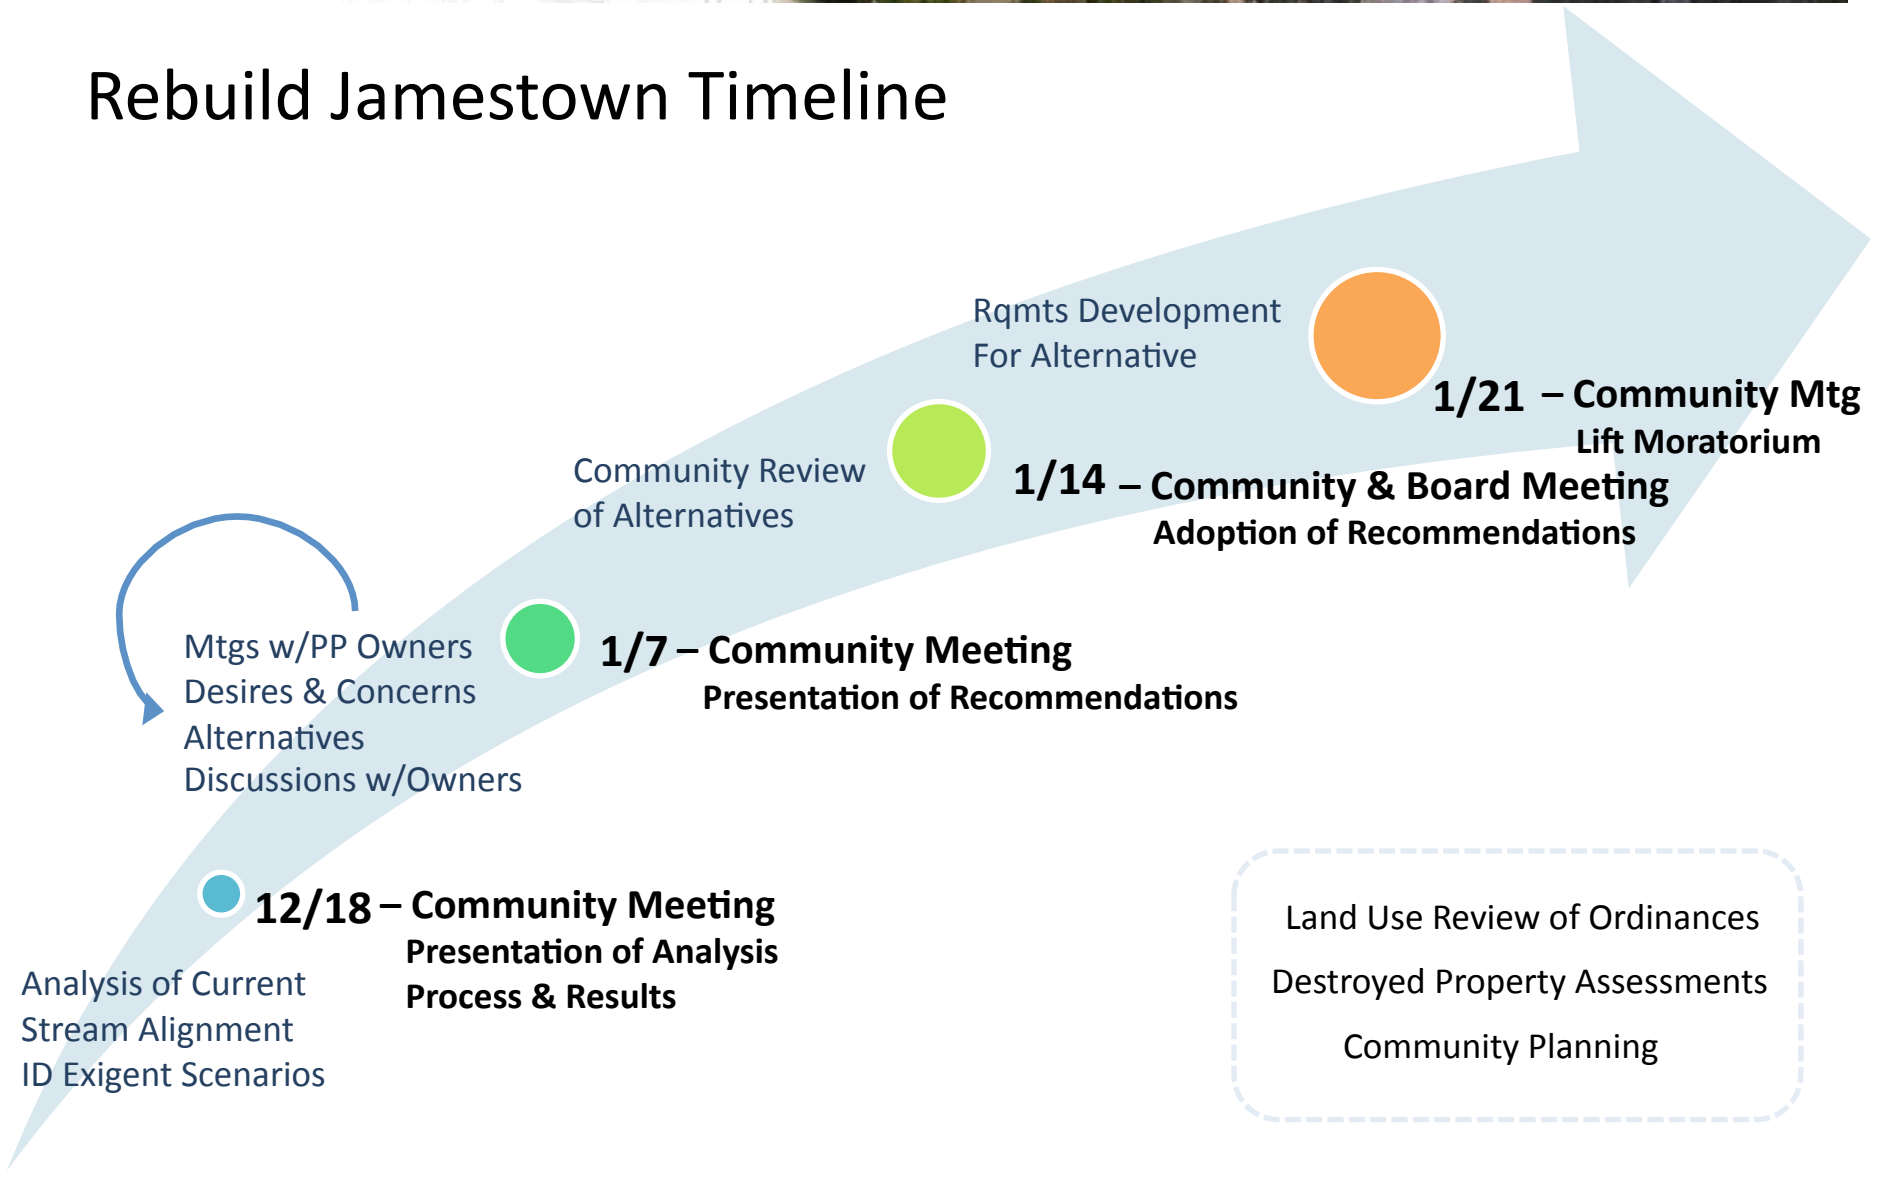

**AMEC**

**Dr. Graeme Aggett**

# Rebuild Jamestown Timeline

## High-Level Stream Corridor Next Steps:

### Stream Corridor Master Plan (AMEC)

- Defining 100-year and 500-year floodplain and the floodway
- Includes some re-contouring of the land
- Jan 21 - Technical requirements for CLOMR

### Environmental Assessment

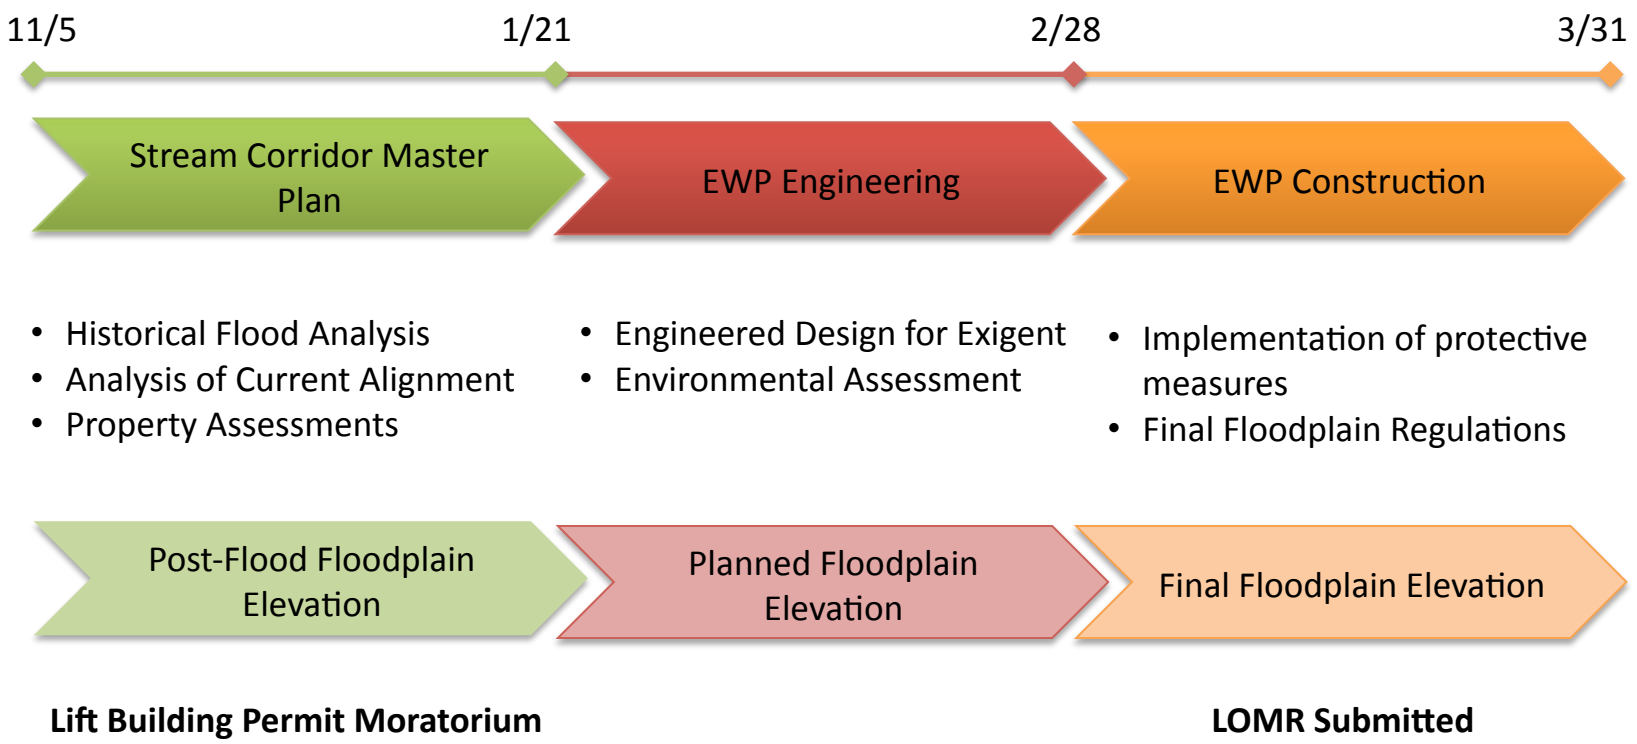

- Requesting grant funds from State (CWCB and OEM)

### Emergency Watershed Protection (EWP) Program

- Developing scope with Natural Resource Conservation Service (NRCS)
- Design/engineering for exigent scenarios is 100% funded through EWP
- Construction is 75% funded through EWP
- Other grant programs

# Floodplain Development Timeline

## What To Expect for 1/21

Post-Flood Base Elevation

Updated Ordinances to Support Rebuilding

Rebuilding Guide

Repeal of the Building Permit Moratorium

Kickoff for the Emergency Watershed Protection
