Jamestown Community Meeting
March 10, 2015
Red Cross Recovery Hero Award Winner

Beth Brotherton: Red Cross Recovery Hero Award Winner

**Congratulations** to Jamestown’s very own BETH BROTHERTON, who received a Recovery Hero Award from the American Red Cross for her fast thinking and organizational skills during the flood, as well as for the incredible way that she maintained continuity with Jamestown Elementary School in the aftermath.

One Red Cross representative said that they have never received so many nominations for one person in the history of the Mile-Hi Chapter’s awards. We are so proud of you, Beth!

[Read the news and watch the video here](#).
Red Cross Recovery Lifesaver Award Nominee

Chris O’Brien: Red Cross Lifesaver Award

Lefthand Fire Protection District’s Deputy Chief CHRIS O’BRIEN was nominated multiple times for the Red Cross Lifesaver Award for his extraordinary and heroic contributions in the September 2013 flood, during which he saved lives. We couldn’t be prouder of Jamestown resident Chris and his table of First Responders who were also honored at the banquet. Thanks to all of you. (And Chris, as far as we’re concerned, the Lifesaver award belonged to you!)
Volunteer Update

• Nina attended the MDS All-Unit Meeting in Hartsville, OH
• Mennonite Disaster Service
  • Total hours: 19,672
  • Skilled Labor: $493,767.20
    (skilled labor $25.10 per hour)
• MDS volunteers scheduled until the end of May
  • Current Project Director, Don Horst (wife Rachel is here for the week helping in the office). Don was in JT last summer.
  • Also working on Olde Stage, in Lyons and Longmont
Rebuilding Projects

• Tim & Wendy’s
  • Moving in is this week!
  • Congratulations & welcome home!

• Burt & Anna’s

• Rick & Kael’s
  • rough-in inspection complete
  • dry wall end of the week
  • CU Students coming on Friday with Flatirons Habitat (30 of them!)

• Carolyn's
  • Estimated start date for excavation and concrete work March 23-27
  • Materials possible arrival first week April
Garden Project

• Goal: to help creek residents prepare their properties for planting and assist in planting

• Workshop for Creek Property Owners:  
  - When: Thursday, March 19th  
  - What: Workshop with Becky Martinek, Professional Landscape Architect (PLA) from Ward, to help you put together a plan for your property. THANK YOU Becky!

• One-on-One meetings with a PLA for primary property owners along the creek to finalize a plan. (This is a $100 an hour donation and an amazing opportunity to create a long-term landscape plan.)

• Volunteer help will be scheduled each Saturday May - June (9 am - 2 pm) to assist with basic yard work.

• Currently recruiting volunteer groups Saturdays May-June so schedule your work group today

• CSU Extension Office Master Gardeners recommended planting a cover crop mix of grasses and plants that are fast growing and will add some nutrients and aerate the current soil

• RETREET non-profit tree planting group suggests we schedule a planting weekend in late June instead of early spring so that we can prepare ground

• Garden to Garden group wants to donate a small amount of plants to JT
Donations

Preston Poe

- Musician/Artist Preston Poe donating 100% of CD profits, *Still Waters Run Deep* to Flatirons Habitat to assist residents in rebuilding. Songs were written from interviews. It's available at CDBaby.com
Long-Term Recovery Plan Update

The Plan is almost complete!

Community Feedback/Sign-Up Meeting

Where: The Merc
When: ST. PATTY'S DAY
      Tuesday 3/17/15 @ 6pm

Rainbow's Cooking a FREE MEAL Traditional Corned Beef & Cabbage.... Yes we said FREE (until Sold-out)
Eat, Drink, Look over projects, SIGN-UP :) 

(Thank you Serena Lucas for the Awesome poster!)
Gillespie Gulch Culvert – Design Features

Design Features
• 150 linear feet of 7 ft x 7 ft concrete box culvert with upstream debris control structure
• 123 linear feet of 7 ft x 10 ft concrete box culvert with energy dissipating baffles and removable top slab for cleanout access after major flood events
Gillespie Gulch Culvert – Project Schedule

Project Schedule Summary

- **Notice to Proceed to the contractor**
  - Expected by end of the week or early next week
- **End of March – Middle of June**
  - Precast concrete box culvert sections fabrication and delivery to site
- **Mid June – Beginning of August**
  - Site excavation and preparation for precast concrete box culvert
  - Placement and construction of concrete box culvert. Culvert construction starts at the downstream end and works up.
- **August**
  - Construction of debris control structure, upstream and downstream walls
  - Final road grading, guardrail placement and riprap at downstream end of culvert
- **Beginning of September**
  - Final construction closeout

DOLA GRANT - Water System Upgrades

- Distribution system
  - Water mains, valves, hydrants replacement
  - Service line re-connections
  - Storage tank inspection, repairs and upgrades
- Water treatment plant
  - High service pump switchgear
  - Treatment of filter washwater
  - Disinfection system SCADA integration
  - Corrosion control
  - Power conditioning
DOLA GRANT - Priorities

- Distribution system
  - History of pipe failures
  - Pipe condition
  - Number of service connections
- Water treatment plant
  - Necessary to meet codes and standards
  - Protect existing equipment
DOLA GRANT - Water Main Upgrades

Pipe replacement
1) West end of Mesa St
2) 15th St.
3) Spruce St.
4) East end of Mesa St.

</tbody>
</table>

**Total funds**  
$ 1,001,982
**DOLA GRANT - Project Approach**

- Jamestown Water Committee developed prioritized scope of work
- Consulting engineer’s contract will be a Design To Budget
- Budget will be monitored throughout design and scope adjusted to accommodate
- If contractor bid varies from the engineer’s estimate, project scope will be adjusted (either up or down)

FEMA – Irrigation ditch reconstruction

• Draft RFP preparation underway
• Rough schedule
  • Send RFP out within the next month
  • Engineering late spring and early summer
  • Construction late summer and early fall
CDPHE Grant – Update

• Project components:
  – Stage 1
    • Upgrades to existing infrastructure
    • Develop redundant water supply (deep wells)
    • Addition of a portable generator
  – Stage 2
    • WTP alarm and system communications
    • Installation of closed loop geothermal system at the WTP
• Schedule:
  – Currently negotiating final contract for design and construction contract
  – Design and construction Spring 2015 thru May 2016
Other Updates

**Andersen Hill and Bridge Project**
- Working through property access required for project
- Estimated start date is after spring run-off

**CDBG-DR – Rose M Subdivision Water Main Extension**
- Working with DOLA Housing Division to how explain the project goals dovetail with the Town’s current housing plan and related ordinances
